MIRROR

The simple forms of the apollo mirror series help to place their unique materiality centre stage. Continuing Studio Furthermore's fascination with texture, experimental production methods and the unknown - the series plays with notions of hard and soft, heavy and an apparent weightlessness. Produced from foam cast aluminium, each piece exudes a unique coarseness across their bubbled surface. Like a piece of moon rock that has survived a journey through the atmosphere, each member of the apollo series is strikingly finished with a simple circular glass mirror.

YEAR OF DESIGN

2019

MATERIAL

aluminium and mirror

DIMENSIONS (mm)

TABLE MIRROR SMALL

Ø240 x 340 H

TABLE MIRROR LARGE

Ø500 x 610 H

WALL MIRROR SMALL

Ø600 x 700 H x 30 W

WALL MIRROR LARGE

Ø800 x 950 H x 30 W

PROCESS

Each piece is handmade in foam before being cast in aluminium. Streaks and other variations in size are part of production processes, and not defects in the design or production. The mirrored round glass is painted black on the rear side.

**CARE INSTRUCTIONS**

Regular cleaning and maintenance is important in order to keep your pulpo product looking its best and to prolong its life. Always remove any kind of dirt as soon as possible. We recommend that you first test a small, invisible area to ensure that no colour change or damage arises to the product. Do not use materials for maintenance that contain abrasive agents or are basic, acid or organic.

GLASS CLEANING

For dusting and light cleaning of glass use a soft, dry cloth. For further cleaning gently wipe the surface with a soft cloth wrung in clean water and a non-abrasive commercial glass cleaner. Dry immediately afterwards with a soft, dry and clean cloth.
