TABLES

The bent table series transports the ephemeral qualities of glass into the humble table. Transparency, texture and a simple form are combined to provide a visually light but incredibly sturdy base. Designer Sebastian Herkner has adapted the simple cast glass forms of his bent lighting series into a set of striking tables. The same casted and curved glass forms have been transported to produce solid structures that react and play with light and their environment. The result is a series of tables that command a closer look.

CARE INSTRUCTIONS

Regular cleaning and maintenance is important in order to keep your pulpo product looking its best and to prolong its life. Always remove any kind of dirt as soon as possible. We recommend that you first test a small, invisible area to ensure that no colour change or damage arises to the product. Do not use materials for maintenance that contain abrasive agents or are basic, acid or organic.

GLASS CLEANING

For dusting and light cleaning of glass use a soft, dry cloth. For further cleaning gently wipe the surface with a soft cloth wrung in clean water and a non-abrasive commercial glass cleaner. Dry immediately afterwards with a soft, dry and clean cloth. Please note that bubbles, streaks and other variations in size and colour are part of the production process, and not defects of the design or production of handmade glass.

MARBLE CLEANING

For dusting and light cleaning of stone use a soft, dry cloth. For further cleaning gently wipe the surface with a soft cloth wrung in clean warm water. Dry immediately afterwards with a soft, dry and clean cloth.
