## CARE INSTRUCTIONS

Regular cleaning and maintenance is important in order to keep your pulpo product looking its best and to prolong its life. Always remove any kind of dirt as soon as possible. We recommend that you first test a small, invisible area to ensure that no colour change or damage arises to the product. Do not use materials for maintenance that contain abrasive agents or are basic, acid or organic.

## VELVET, COTTON-VELOUR, LINEN, WOOL

For dusting and light cleaning of fabrics first try to gently brush off any dirt. If required vacuum the surface with a soft brush. For further cleaning, mix clean water and stain remover. Using a wrung soft cloth, gently rub the mixture into the fabric using a circular motion. Dry immediately afterwards with a soft, dry and clean cloth.
