CABINETS

GAME. SET. MATCH.

Studio Visser & Meijwaard describe their conception of lyn as a “graphic interplay between glass and the metal frameworks”. The doorless and diverse series of cabinets and high boards are equivalent to the designers’ ambition to rethink established forms, like they did in their past as fashion designers. The reduction to the absolute essential form opens a free interplay of material and colour. Depending on the lighting conditions, the viewer’s perspective and arrangement it casts the utmost of diverse highlights.
