LOUNGE CHAIRS

GENEROUS. BOLD. EVOCATING.

Starting from a simple construction, ending in a seat with refined but strong lines. This low chair offers a comfortable and very sculptural seat. It is composed of two rolled, painted sheet metal shells, whose empty body is covered by the seat and the backrest. Despite the simplicity of the structure, the generous shapes create a bold and impressive design.

YEAR OF DESIGN

2021

MATERIAL

leather; cord, faux fur; wool, powder coated metal

DIMENSIONS (mm)

650 L x 750 W x 750 H

PRODUCT CHARACTERISTICS

The frame is constructed from powder coated metal. Marks and folds in the fabrics of the sit area are part of the production process, and not defects of the design or production.

CARE INSTRUCTIONS

Regular cleaning and maintenance is important in order to keep your pulpo product looking its best and to prolong its life. Always remove any kind of dirt as soon as possible. We recommend that you first test a small, invisible area to ensure that no colour change or damage arises to the product. Do not use materials for maintenance that contain abrasive agents or are basic, acid or organic.

METAL CLEANING

STEEL/ALUMINIUM POWDER COATED

For dusting and light cleaning of the base, use a soft and dry cloth. For further cleaning, gently wipe the surface with a soft cloth wrung in clean water and a neutral detergent or soap flakes of good quality. Dry immediately afterwards with a soft, dry and clean cloth. For the best maintenance of the product, care for it regularly, protect it against direct sunlight and heat, and try to keep it away from moisture, grease, and other dirt. Furthermore, protect the surfaces against sharp objects and other that might scratch.

UPHOLSTERY/WOOL CLEANING

Vacuum upholstery regularly using the appropriate attachment. Many spots can be removed with a cloth and warm water, with the addition of a mild soap if necessary. If you need to use stain remover, first test it in a hidden spot. Do not use any cleaners that contain bleach, and avoid strong rubbing. Care-fully dry damp areas with a hairdryer in order to counteract water stains. In case of heavy soiling or difficult stains, consult a professional. Removable covers should be professionally cleaned only.

LEATHER CLEANING

If necessary, vacuum the leather furniture with a soft brush. Remove small stains with a damp cloth and wipe dry. Never use stain removers, shoe polish, solvents, floor wax or other inappropriate products. Premium leather is more sensitive due to the natural tanning and should be vacuumed with a soft brush only. Never use stain removers, shoe polish, solvents, floor wax or other inappropriate products.

FAUX FUR CLEANING

Brush the faux fur gently with a soft brush to remove loose dirt and grime particles. Try not to tangle the fur as you brush it. Dampen a terry cloth with water. Wring out the excess water from the cloth so that it is only slightly moist.

VELVET CORD CLEANING

Velvet corduroy makes a plush, durable upholstery with a soft, luxurious feel. It is often treated with a stain guard product for easy care. When considering how to care for your upholstery, avoid excessive heat that can shrink the fabric. Use products designed for upholstery cleaning to avoid water spots and dry the upholstery quickly. Vacuum your upholstery weekly and blot up any spills to maintain its appearance.
